	Bigs		

These are all great trips and could be costly to go on all.

However, all members have the ability to assist with the cost of their activities by taking part in car washing on Saturday mornings. One car wash can pay for the entire cost of the cheaper trips – as little as just 4 car washes can pay for the most expensive. If you want to go, get washing!!

## Subsidies

Some of the trips have been subsidised in the past through grants we have been successful in applying for. However, those funds have run out and we need your help to apply for new ones. If you are able to spend a little time applying the grant bodies it will enable us to send more people away on lower cost experiences. Please let us know if you have some time to help.

## What Trips Are You Interested In?

It really helps us when we plan the trips to know how many people are **interested** in taking part.

Please let us know, it really does help. We won't hold you to it, it just gives us an indication.

Please will you use the next page to tell us which trips you are interested in and return to us as soon as poss – thanks!!
